To Whom It May Concern

**REFERENCE LETTER | GREENDATA ICT SOLUTIONS "Greendata"**

It is with much enthusiasm that I am writing to recommend the services of the Greendata.

I have been using Greendata for all my IT related services (incl. hardware, software, subscriptions and support) for the past 7 months. Their service is impeccable, and I have always been completely satisfied with their performance. They go the extra mile to ensure your business can continue without any interruptions and should anything come up they don't stop until they have a solution. Their rates are very competitive, and their staff are always polite and helpful.

We implemented a data backup system as well as converted onto a new system where we can all access the same information that is up to date and I was very impressed with how they handled the conversion.

As an accounting firm we buy laptops on a regular basis and they always listen to our requirements and then give us various options to choose from. They don't try and sell the latest and greatest for them to make bigger profits which we appreciate.

I'm happy to recommend the services of Greendata. If you have any questions, please feel free to contact me.

Yours faithfully

M Stoltz  
Professional Accountant (SA)
